# Client Solution

## Seattle Bank Provides \$2 million Unsecured Line of Credit to Family LLC

Our client is the CEO and majority owner of a Seattle-based, second generation company doing business nationally. He established a family investment entity with his children through which they make real estate and business investments.

Our client came to us looking for a way to support timing differences between distributions from the existing portfolio and new investment opportunities. After sitting down with our client and learning more about the family's goals, we provided a \$2 million unsecured line of credit to the LLC backed by our client, allowing the family access to liquidity to support new investments.

At Seattle Bank, our mission is to be a unique financial resource by providing our clients a personalized experience and peace of mind. We are pleased to be a trusted partner for our client and his family and look forward to continuing to serve them in the years to come.

---

Seattle Bank is a boutique bank focused on the needs of families, businesses, and community organizations in the Pacific Northwest. Our mission is to be a unique financial resource by providing our clients a personalized experience and peace of mind. We are a unique partner to the independent wealth management community, collaborating closely with our clients' trusted advisors to assist them in providing holistic wealth management solutions.
